Objective

A highly skilled and motivated Python Developer with 5+ years of experience in developing and implementing software solutions. Seeking a challenging position in a dynamic organization where I can utilize my technical expertise and contribute to the success of the team.

Education

Bachelor of Science in Computer Science, University of Lagos, Nigeria (2010-2014)

Master of Science in Software Engineering, University of Ibadan, Nigeria (2015-2017)

Technical Skills

- Proficient in Python, Java, and C++
- Experience with Django, Flask, and other Python frameworks
- Strong knowledge of SQL and database management
- Familiarity with front-end technologies such as HTML, CSS, and JavaScript
- Version control using Git and GitHub
- Experience with Agile development methodologies

Work Experience

Software Developer, XYZ Company, Lagos, Nigeria (2017-present)

- Develop and maintain web applications using Python and Django framework
- Collaborate with cross-functional teams to design and implement software solutions
- Optimize application performance and troubleshoot issues
- Conduct code reviews and provide constructive feedback to team members
- Participate in Agile development process, including daily stand-ups and sprint planning

Projects

1. E-commerce Website - Developed a fully functional e-commerce website using Python, Django, and PostgreSQL database. Implemented features such as user authentication, product catalog, shopping cart, and payment integration.
2. Data Analysis Tool - Created a data analysis tool using Python and Pandas library. The tool allows users to import and analyze large datasets, generate visualizations, and export results in various formats.

Certifications

Python for Data Science - Coursera (2018)

Agile Software Development - Udemy (2019)
